

Abdelkawy Nasr Badr

Back-end Developer

Cairo, Egypt

☎ +201151201410 | ✉ abdonasr698@gmail.com | 🔗 linkedin.com/in/abdelkawei | 🌐 github.com/abdo5120

SUMMARY

Software Engineer specializing in **backend development** with **Java** and **Spring Boot**, experienced in building **scalable RESTful APIs** and **secure applications**. Developed **25+ APIs** across multiple projects and delivered **production-ready solutions** in collaborative environments. Solved **500+ algorithmic problems** on **LeetCode** and **Codeforces**, demonstrating strong **problem-solving** and **data structures** expertise.

EDUCATION

- **Bachelor of Computer Science** Sep. 2021 – Jul. 2025
Faculty of Computers and Information, Minia University
Graduation project : EduQuest – Education Platform (Grade: Excellent) GPA: 3.31/4.00

INTERNSHIP

- **Banque Misr** Jul. 2025 - Aug. 2025
Back-End Development Internship
 - Completed **240+ hours** of intensive backend development training, mastering **Spring Framework, SQL, NoSQL, and Docker**.
 - Enhanced performance and maintainability of **3+ backend projects** by applying **Spring Boot** and database design best practices.
 - Collaborated in a **team of 5 developers** to successfully deliver **2 production-ready backend systems**.
 - Enhanced code quality by adhering to **clean architecture principles** and **industry standards** under senior engineer mentorship.

PROJECTS

- **Hospitel System: [Graduation project for Banque Misr Intern]** [🌐 Github]
Java, Spring Boot, Spring Security, Spring Data JPA, RESTful APIs, MySQL, Docker, Git
Engineered the **Prescription module** end-to-end within a collaborative hospital system serving multiple users.
 - Developed **10+ RESTful APIs** for prescription management, improving modularity and scalability.
 - Implemented **business logic and validation rules**, reducing data inconsistencies and ensuring data integrity.
 - Designed the **data layer** using JPA, DTOs, and mappers, improving maintainability and query performance.
- **University Room Booking system** [🌐 Github]
Java, Spring Boot, Spring Security, Spring Data JPA, RESTful APIs, MySQL, Git
Built a scalable reservation platform for university room booking, handling scheduling and booking operations.
 - Developed a **conflict detection algorithm** that reduced double-booking scenarios to near zero.
 - Implemented backend logic handling **100+ booking scenarios (test cases)**.
 - Designed the **data access layer** using JPA, DTOs, and mappers, improving system performance.
 - Documented APIs using **Swagger**, improving developer usability.
- **EduQuest – Education Platform: [Graduation project]** [🌐 Github]
Java, Spring Boot, Spring Security, Spring Data JPA, RESTful APIs, MySQL, Git
Developed a scalable backend system for an education platform using **Spring Boot** and **clean architecture**.
 - Designed and implemented **15+ RESTful APIs** for users, courses, and exams.
 - Integrated **JWT-based authentication and authorization**, securing endpoints and user access.
 - Applied JPA/Hibernate with validation and exception handling, reducing runtime errors and improving reliability.

TECHNICAL SKILLS

Languages: Java, C++, C#.

Back-End Development: Spring (Core, Boot, Security, Data JPA), RESTful APIs, JWT, Swagger.

Databases: Database Design, MySQL, Oracle.

Tools & DevOps: Git, Postman, Docker(Familiar).

Software Engineering: Data Structures & Algorithms, OOP, SOLID Principles, Design Patterns, Clean Code.

Problem Solving Skills: Solved **500+ algorithmic problems** on ([Codeforces](#), [LeetCode](#)).

COURSES & TRAINING

- **Back-End Development with Java Spring Boot - Sprints & Banque Misr :** [Certificate Link](#) Aug. 2025
- **Java Programming (30 hrs) - Information Technology Institute (ITI):** [Certificate Link](#) Aug. 2024
